INDIA CIRCULAR ECONOMY FORUM  
ICEF2024

The annual India Circular Economy Forum (ICEF) serves as a platform where India's leading circular economy solutions are presented, offering a unique opportunity for business leaders, policymakers, and experts from around the world to converge. It highlights the potential of circular economy approaches in not only helping businesses discover new opportunities and gain a competitive edge but also contributing significantly to the achievement of the United Nations SDGs.

## WHAT IS ICEF?

ICEF, an initiative by ICCE, plays a pivotal role in identifying the essential components of a circular economy and spotlighting innovative solutions and valuable insights. It brings together individuals from diverse sectors to foster collaboration and knowledge sharing.

Commencing in 2022, the first two editions in 2022 and 2023 successfully convened an illustrious ensemble of thought leaders from industry, heads of state and government, scholars, corporate representatives, youth groups, non-profit organizations, and civil society from across the globe, earning recognition of a responsible and impactful platform, mobilizing opinion-makers to address paramount issues related to sustainable development, resource efficiency, and climate change. ICEF inspires leaders to develop strategies that align with the goal of promoting a pro-planet mindset.

The background of the entire page is a photograph of several hands of different skin tones (brown, tan, and green) reaching upwards to hold a small green plant with two leaves. The hands are positioned in a way that they form a triangular shape around the plant, symbolizing growth, support, and collaboration. The overall tone is positive and forward-looking.

# ICEF 2024

ICEF2024 is poised to once again assume a pivotal role, not only as a platform for dialogues but also as a crucible for generating new knowledge. Leaders from diverse sectors will convene to share their experiences, while the youth will present their latest research and innovations in these fields, catalyzing the transition from a take-make-waste economy towards a more sustainable and circular future.

ICEF2024 would provide a comprehensive platform for knowledge exchange, collaboration, and actionable insights in the field of circular economy. The forum aims to:

Emerging **technologies and innovations** across various sectors

**Global Best practices** and success stories

**Carbon Border Adjustment Mechanism (CBAM)** and its implications

Foster collaboration to **drive circularity in the Indian economy**

## AT ICEF2024

Identification of practical approaches and strategies for incorporating emerging technologies and innovations into circular business models.

Enhanced collaboration between domestic and international stakeholders in the pursuit of circular economy goals.

A roadmap for India's circular transition, highlighting key focus areas and actionable steps.

# FOCUS AT ICEF

## **Latest Technology Exposure:**

Gain insights into cutting-edge technologies and best practices across sectors, helping companies stay at the forefront of innovation.

## **Circular Design Strategies:**

Explore innovative circular design strategies that can enhance product sustainability and market competitiveness.

## **Waste Management Solutions:**

Learn about advanced waste management solutions, including waste-to-wealth initiatives, contributing to efficient resource utilization.

## **Policy and Regulation Insights:**

Stay informed about the latest policies and regulations in the circular economy space, to help align your practices with legal requirements.

## **Innovation and Technology:**

Stay abreast of the latest innovations & technologies driving the circular economy, offering opportunities for adaptation & integration.

# ACE AWARDS

## EDITION 3

Open to companies, MNCs, Charities, NGOs, ULBs and Cities making a positive impact on people and the planet.

Evaluation based on holistic adoption of 'The 5 R's': Refuse, Reduce, Reuse, Repurpose, and Recycle.

**CATEGORIES-**  
Enterprise Awards  
Higher Education  
K-12 Schools  
ULBs & Cities  
NGOs

# Glimpses of ICEF2023

Transitioning from throwaway culture to a  
Circular Economy!

The forum explored several key themes essential to circularity, including the crucial role of segregation in the circular economy, the development of circular business models, the establishment of regenerative systems, financing opportunities for circularity, the application of BioCNG technology in India, and circularity within the Indian Textile Industry. These themes sparked insightful discussions and offered practical insights for driving the circular economy forward. The key action areas and recommendations were shared with line ministries such as MoEFCC, MoHUA, MoMSME, MIETY, CPCB and NITI Aayog.

Inauguration of ICEF2023

Release of third Annual Report of ICCE
